

# V125

## Climate controller with direct control for 1 group of air-inlets

### DETAILS

- It allows to manage ventilation, heating, cooling, alarm and air-inlet.
- It indicates the position of the windows.
- Direct control of a winch motor or air-inlet.
- It can control motor-gear by time or potentiometer.
- Relay for auxiliary contact and alarm.
- Maximum power: Single phase motor-gear 2,2 Kw / Three phase motor-gear 4 Kw.
- Set of contactors to control directly a single / three phase motor-gear.

### TECHNICAL SPECIFICATIONS

REFERENCE	V125
INPUTS	1 Temperature probe
OUTPUTS	2 Relays 1 Single/Three phase motor-gear output
VOLTAGE	230 V / 400 V
MEASURES	168x247x106 mm
IP PROTECTION	IP66
NORMATIVES	89/392/EEC – 73/336/EEC – 73/23/EEC
