

V25 | Climate controller with winch motor for air inlets rising up to 200 kg

DETAILS

- It can rise directly 100 kg and up to 200 kg with hoist.
- It allows to manage the ventilation, heating, cooling, alarm and air-inlets.
- In can control independently the ventilation, heating, and air-inlets.
- Power triac output of 6A
- The auxiliary contact can be configured for cooling or heating.
- Alarm in case of mechanic fault.
- Winch motor of 12V.
- It has emergency system and anti-exhaust system. In case of fault of electricity supply then the air-inlets go to emergency position.
- Built-in battery.
- It has a light sign to indicate when the battery is charged.
- Maximum power: 1400 W.

TECHNICAL SPECIFICATIONS

REFERENCE	V25
INPUTS	1 Temperature probe
OUTPUTS	2 Relays 1 (0-10V) outputs 1 Power output 6A
VOLTAGE	230 V
MEASURES	250x131x247 mm
IP PROTECTION	IP55
NORMATIVES	89/392/EEC - 73/336/EEC - 73/23/EEC
