

# DLG | Device to monitor real time data in the farm

## DETAILS

- DLG monitors data of 1 room.
- Up to 5 temperature sensors.
- It has 4 analogic inputs to connect in total 4 sensors among the following:
  - Humidity (up to 2 units)
  - Co2
  - Ammonia
  - Methane
  - PH in water
  - Pressure meter probe
- It has 4 digital inputs to connect counters (water, feed and free configuration).
- Relay alarm to control and monitor alarms.
- Easy installation and configuration with the assistance of the mobile app CTIsetup. Remote control to turn the device on and off.

## TECHNICAL SPECIFICATIONS

REFERENCE	DLG
<b>INPUTS</b>	5 Temperature probes 4 Digital inputs 4 Analogic inputs
<b>OUTPUTS</b>	2 Relays 1 CAN port WIFI IEEE 802.11 b/g/n Modem with communications: GPRS/QUAD BAND
<b>VOLTAGE</b>	100 - 240 Vac
<b>MEASURES</b>	240x191x110 mm
<b>IP PROTECTION</b>	IP67
<b>NORMATIVES</b>	89/392/EEC - 73/336/EEC - 73/23/EEC
